#time management
#teamwork
#autonomy

WEB DEVELOPMENT / WEB DESIGN

#HTML5/CSS3 #Tailwind #JavaScript (ES6) #Vue.js #React #jQuery #GSAP #Mapbox #WordPress #SilverStripe #PHP #Jamstack #Dato #Prismic #APIs #figma #photoshop #indesign #illustrator
Front-end development: full static and JAMstack development, WordPress custom themes/plugins development; JS animations, performance tests, SEO and accessibility; use of many frameworks and CMS; writing documentation
UX / UI design: wireframing / designing
Workflow: projects monitoring and updating, workflow tools creation (Git, Webpack, SASS, etc)

DIGITAL PROJECT MANAGEMENT

Upfront: **defining clients' needs and project's scope, budgeting & planning, quotes & billing**
All along: **agile and scrum** methods, ensure smooth communication between all parties, follow-up on progress
After delivery: handling client's feedback, monitoring and updating, creating systems to improve efficiency

HR / TRAINING

HR: **organizing recruitment** for interns and new employees, **interviewing and onboarding** them, regular check-ins
Management: **managing interns**, giving them projects and tasks and checking their work; **coordinating volunteers**
Training: teaching colleagues technologies and softwares, teaching customers how to use CMS and specific tools

CUSTOMER SERVICE / RETAIL / OUTDOORS / ANIMATION

Customer service: greeting and informing customers/visitors, resolving conflict, taking calls, answering emails
Booking agent: schedule & book tours/visits according to guests needs (accommodation, meals, activities, etc.)
Retail: stock management, POS and cash handling, advising customers, showcasing products
Leading trainings/visits: for individuals and groups up to 40 pax (children, adults, people with specific needs)
Event organization: digital communication, setting-up venues

WEB EXPERIENCE

Oct 2014 - Today

FRONT-END CREATIVE DEVELOPER (FREELANCE) / REMOTE @ ELISABETH HAMEL

#projectmanagement #webdevelopment #webdesign #communication #organization #flexibility #time management
Definition of clients' needs and project's scope, budgeting, planning. UX design with arborescences, wireframing, co-creation of content with the client. UI design adapted to client's brand guidelines.
Front-end development: **WordPress, static, JAMstack, SilverStripe, JS (ES6), Tailwind, GSAP...**, with a special care for smooth animations, performances, natural SEO and accessibility. Monitoring after delivery.

· SilverStripe projects for EBOSS and Blockwise in collaboration with Dodat Ltd (New-Zealand)
· Sails of Change: WordPress custom theme and plugins, in collaboration with Lost Mechanics
· Alven Capital: WordPress custom theme and plugins, in collaboration with Studio Neico
· Stratumn: Jamstack website with Nuxt (Vue.js) and DatoCMS, design by Stéréosuper
· Popside: full static simple website, UX and UI design made in collaboration with Studio Neico
· Some volunteering project scoping, UX and content definition work for FT44

Oct 2014 - Nov 2020

FRONT-END CREATIVE DEVELOPER / STEREOSUPER - NANTES, FRANCE

#projectmanagement #webdevelopment #design #teaching #communication #organization #teamwork #time management
Managing interns and projects, budgeting and direct communication with the clients.
